

New i30

 HYUNDAI

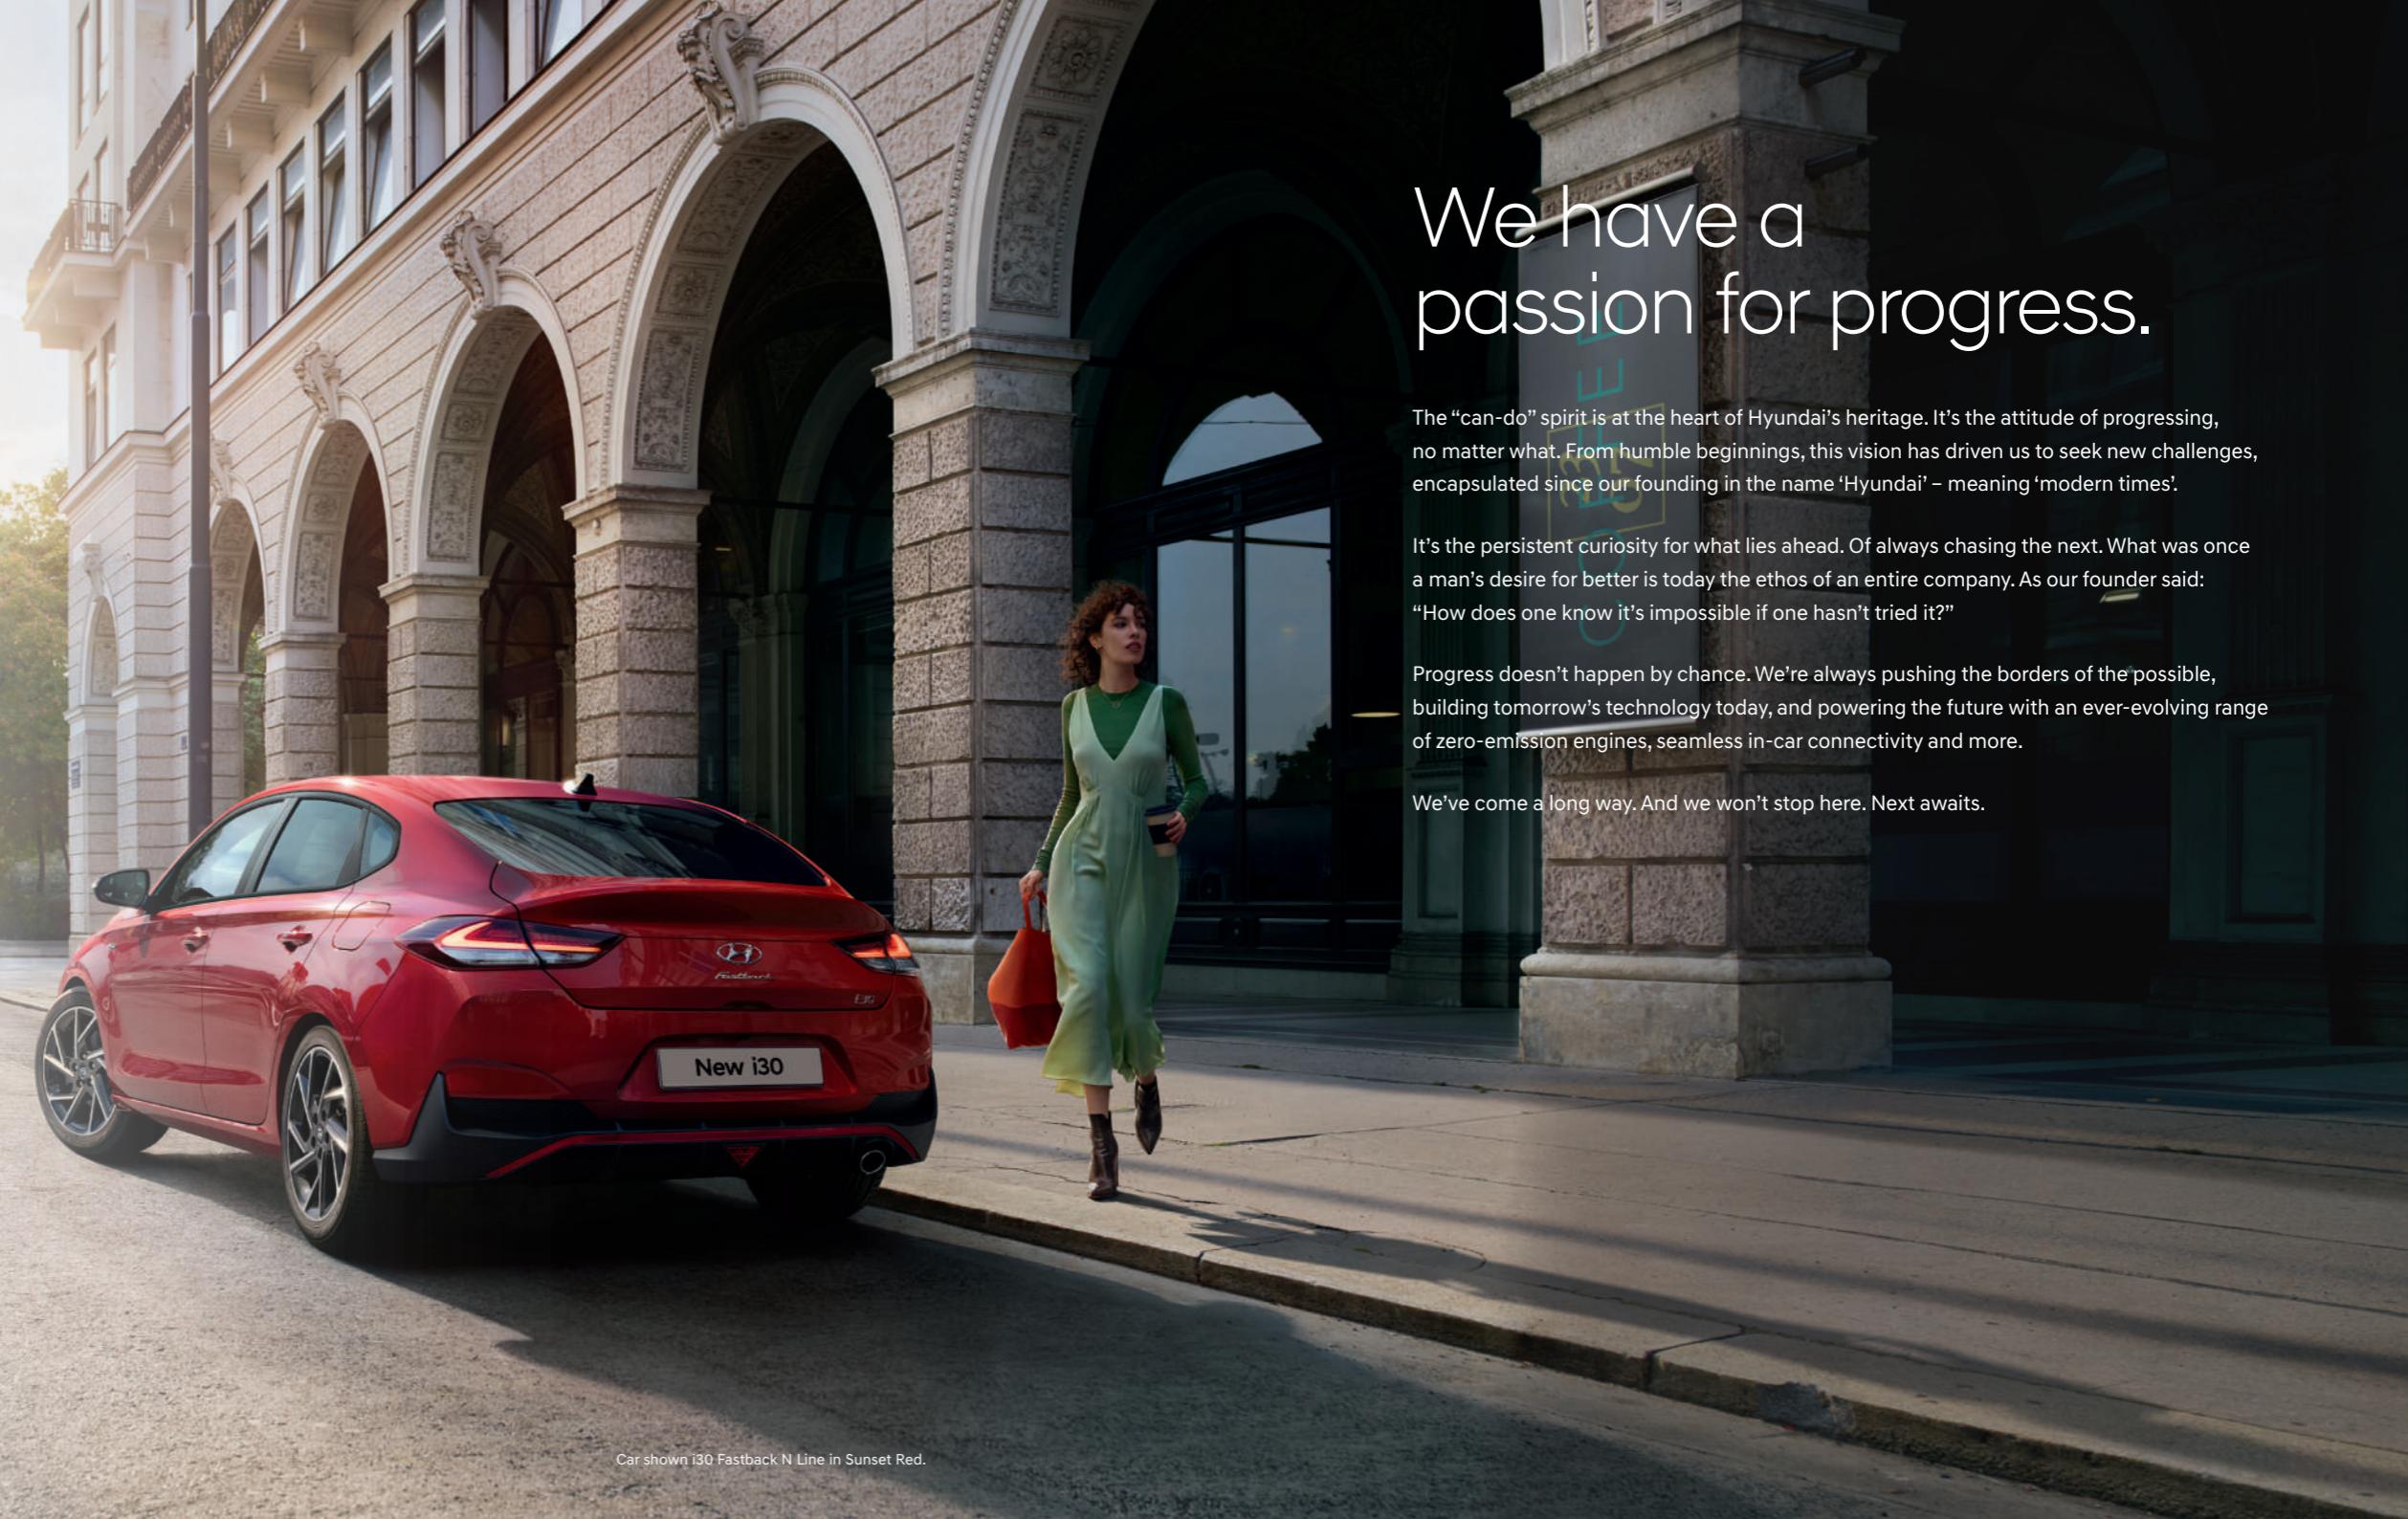

We have a passion for progress.

The “can-do” spirit is at the heart of Hyundai’s heritage. It’s the attitude of progressing, no matter what. From humble beginnings, this vision has driven us to seek new challenges, encapsulated since our founding in the name ‘Hyundai’ – meaning ‘modern times’.

It’s the persistent curiosity for what lies ahead. Of always chasing the next. What was once a man’s desire for better is today the ethos of an entire company. As our founder said: “How does one know it’s impossible if one hasn’t tried it?”

Progress doesn’t happen by chance. We’re always pushing the borders of the possible, building tomorrow’s technology today, and powering the future with an ever-evolving range of zero-emission engines, seamless in-car connectivity and more.

We’ve come a long way. And we won’t stop here. Next awaits.

Car shown i30 Fastback N Line in Sunset Red.

Style that demands attention.

Impressive design from the wheels up.

Strong, bold and sleek, the contoured bumper offers a striking design.

Stylish 16", 17" and 18" alloy wheels add individuality and ride comfort.

The rear bumper adds to the aerodynamics with smooth lines and integrated exhaust.

Bold lines and elegant curves create a sleek eye-catching design. The restyled bumper and grille give the New i30 grace in motion – complemented by integrated LED Daytime Running Lamps and 17" alloy wheels available on our New i30 Premium. It's just as desirable from the driving seat, with premium interiors boasting luxury comfortable cloth & leather and privacy glass.

Explore the open road.

The New i30 – built for power and agility.

Car shown New i30 Premium.

Three fuel-efficient powertrains let you decide the ride you need offering improved emissions and MPG, with a 48 Volt Hybrid engine as standard, and petrol and diesel options available – from 1.0 T-GDi 120PS up to 1.5 T-GDi 159PS. Whatever the journey brings your way, handle it in comfort with a spacious interior and convenient features like smart key and button start, wireless phone charging, heated seats, and much, much more.

Next level driving.

The track-inspired experience.

Welcome to N Line driving - enhanced performance, enhanced technology and an enhanced driving experience born on the track. With refined design all round, signature styling and 159PS from the 1.5 T-GDi 48 Volt Hybrid Powertrain, the i30 N Line delivers a potent combination of power and poise.

Next level comfort and control.

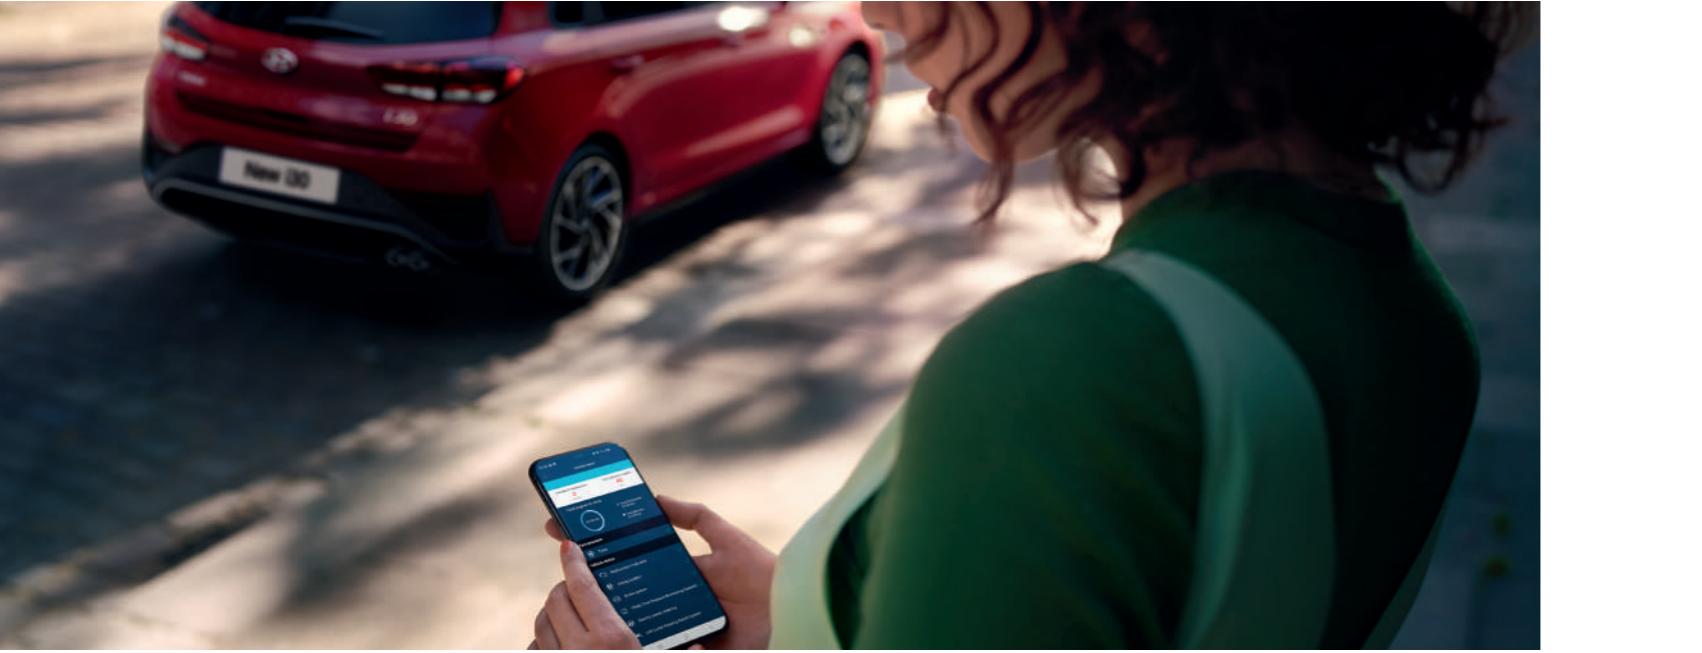

Subtle elegance and quality throughout.

Advanced infotainment at your fingertips with the 10.25" touch screen navigation. Image shown left hand drive

When it comes to creature comforts, the interior of the New i30 stands out from the crowd. Subtle design and tactile surfaces are easy on the eye and responsive to the touch. With Premium and N Line trims including the large 10.25" touch screen navigation, we've gone to the next level for comfort and control.

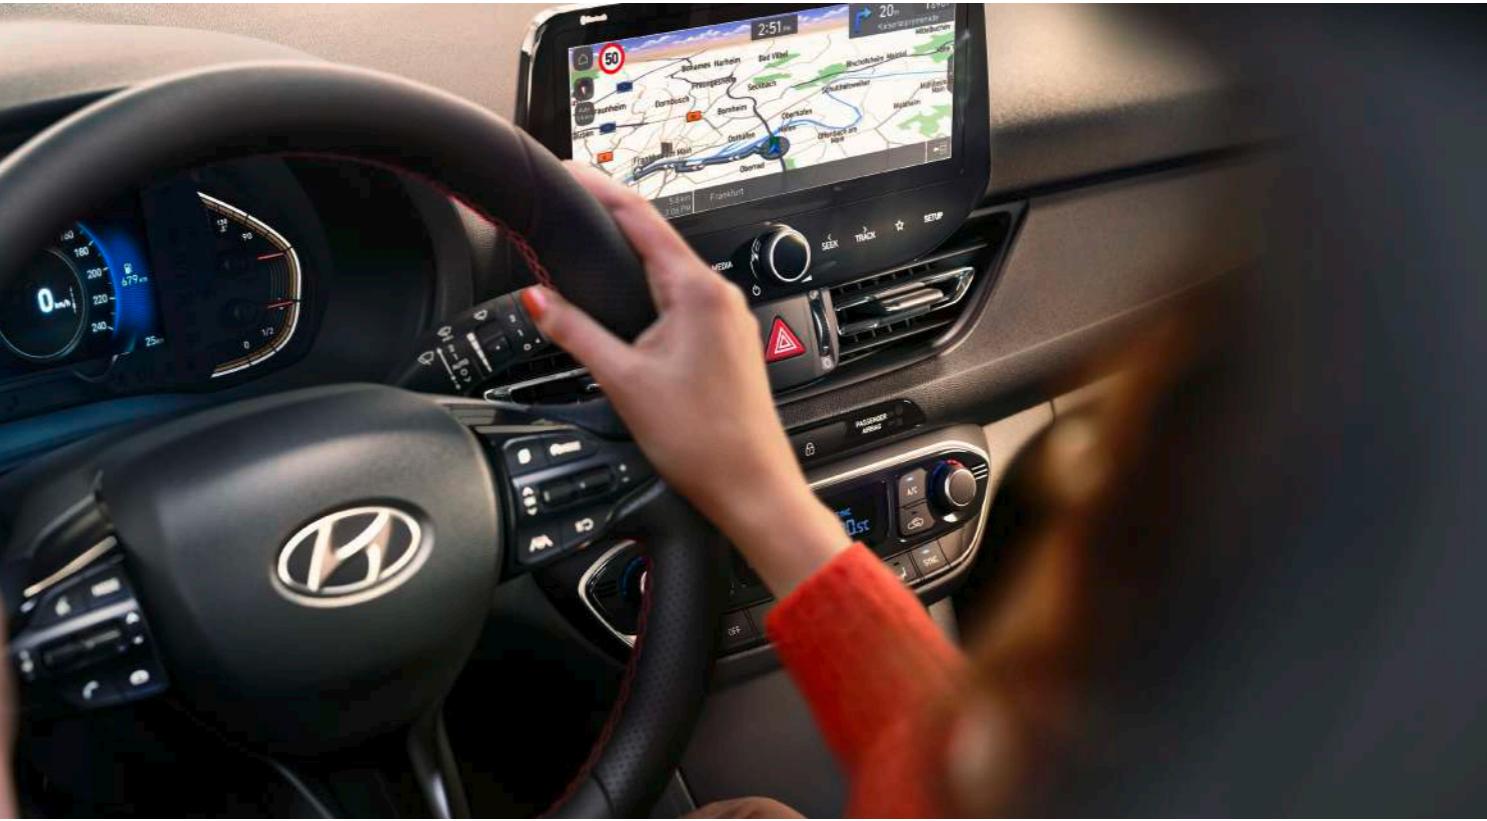

Blue Link™ Connected Car Services. Available on Premium and N Line models.

Phone Connection – Apple CarPlay™ / Android Auto. Available on all Trims.

Travel, better connected.

Get closer to your car with smarter technology.

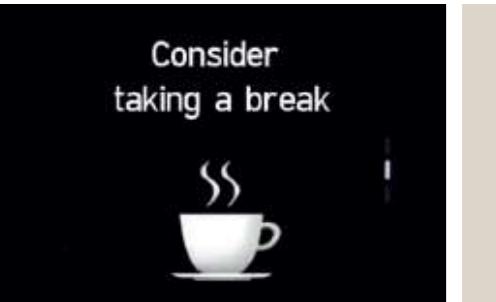

10.25" Touchscreen Navigation with LIVE Services w Bluelink. Available on Premium and N Line models.

Turn your car into your co-pilot with smart technology that links your devices. Bluetooth® with voice recognition and a 7" digital cluster keeps your focus on the road, while Apple Carplay™/Android Auto™ compatibility makes connecting a breeze. Find your destination without a fuss using the 10.25" touchscreen navigation, connected to LIVE services and Hyundai Bluelink™.

Protect what matters most.

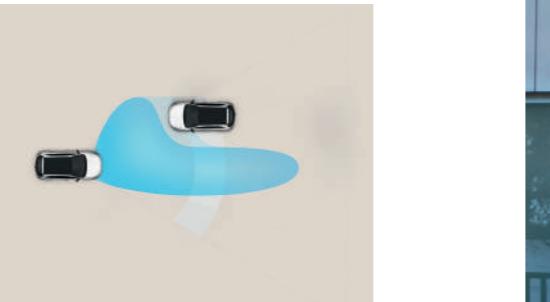

A car that keeps your loved ones safe.

Driver Attention Warning (DAW): When a pattern of fatigue or distraction is identified, the system gets your attention with an alert and pop-up message suggesting a break.

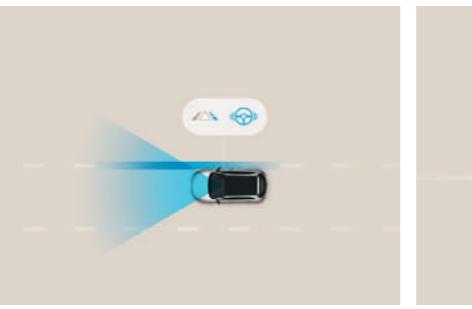

Front Collision Avoidance (FCA): The front view camera and radar sensors warn drivers of imminent collisions with vehicles and objects, applying the brakes when necessary to avoid collisions.

High Beam Assist (HBA): Less stress and maximum visibility. HBA not only detects oncoming vehicles but also vehicles in the same lane ahead and switches to low-beam as appropriate.

Lane Follow Assist (LFA): Smart sensors and the forward-facing camera detect when the car drifts from the centre of the lane, applying steering torque to hold road positioning for safety. The car also estimates the trajectory of the vehicle ahead and adjusts its position accordingly.

Lane Keeping Assist (LKA): The Lane Keeping Assist (LKA) uses the front multi-function camera to monitor the lines of the road. In case of an unintended lane departure, it warns you and can apply counter steering torque to guide the car back to the lane.

Rear Cross-traffic Collision Warning (RCCW): Sensors detect vehicles approaching from both sides when the i30 is in reverse, avoiding collisions in congested or reduced visibility environments such as car parks.

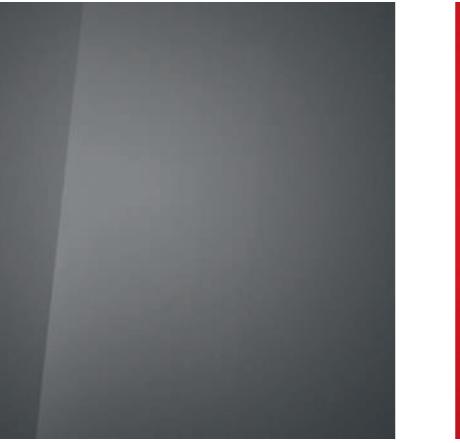

The New i30 is filled with systems to protect passengers. Both Blind-spot and Rear Collision Warnings alert you if anyone's too close, while Lane Keeping Assist keeps you within the lines. Tyre Pressure Monitoring Systems looks out for punctures to keep you safe, and if the worst happens the innovative eCall button will tell the emergency services exactly where you are.
